BULL MOOSERS ARE TO CONFER

STATE COMMITTEEMAN FORDHAM PLANS TO TAKE HOSTS FROM THIRTEENTH.

TO ORGANIZE SOUTH

Plan is to Take Northern Bull Moosers to Meet Southern Men and to Organize in Egypt.

State Committeeman H. L. Fordham of Dixon is busy as one of the members on the committee of arrangements for the coming progressive conference which will be held in Springfield early next week. Under the management of the Progressive club of Chicago a special train on the Illinois Central has been chartered and will take the delegates from the northern part of the state leaving Chicago on Sunday evening and returning Tuesday evening.

Reservation for accommodations on the train, which will be called the Social Justice Special, are to be made at the club, 19 West Jackson avenue.

Object Better Organization.

In an interview Mr. Fordham states that the object of the conference is to better organize southern Illinois. In the last campaign the northern part of the state was well organized, but the counties in the southern portion of the state were lacking. With that in mind this conference is to be held at Springfield, where the members of the state committee, county chairmen and precinct committeemen are invited together to meet those from other sections and to receive inspiration from men like Senator Beveridge and Governor Stubbs, who will address them.

The state committee has been formulating a plan for the financing of a permanent speakers' bureau and a service department. This plan will be discussed and approved by the conference.

Local Men to Attend.

Indications are that several prominent Progressives from the thirteenth district are planning to attend, the new train service on the Illinois Central making it especially convenient to get to Springfield.

THOUGHT THEY HEARD PISTOL SHOTS

Some of the residents of West Dixon were alarmed at about three o'clock this morning by three reports, which they thought were pistol shots. Investigation, however, fails to disclose that there was any shooting of any kind in that part of the city and it is believed the reports were those of torpedoes placed on the railroad tracks by the trainmen.

JUSTICE COMMISSIONERS.

County Clerk W. C. Thompson today received from Gov. Dunne the commissions of the thirty justices of the peace of the county, and they will be distributed as soon as possible.

Y. CHORUS TO SING.

The Y. M. C. A. men's chorus will sing at the Congregational church tomorrow evening. The pastor, Rev. C. E. Stebbins, will take for his subject, "The Melting Pot."

INJURIES ARE PAINFUL.

Justus Schweinsberg, who was injured Thursday in a fall at his new building on First street, is still confined to his bed. His injuries, which are not considered serious, are proving most painful.

ERWIN JUDGED CONTEST.

Attorney John E. Erwin was in Mt. Morris last evening where he officiated as a judge in an oratorical contest conducted by the students of Mt. Morris college.

O'HARA WILL SURELY BE HERE.

Secretary Bailey of the Y. M. C. A. received a wire today making positive Lieutenant Governor O'Hara's visit here and speech at the Y. M. C. A. on May 2, next Friday. The official's address will be a vitally interesting one and will surely draw a capacity house.

County Superintendent L. W. Miller this afternoon sat as a court of appeal in a controversy over the dividing boundary line of school districts Nos. 22 and 24 in Dixon township, northeast of the city.

The question was brought up some time ago by petition, asking that certain territory be transferred from the Bend school district to the Brierton district. The trustees allowed the petition, but objectors have carried the question to the county superintendent's office and this afternoon he took evidence in the matter. He will announce his decision later.

FRED HUMPHRIES FUNERAL TOMORROW

FROM CATHOLIC CHURCH AT 2:30—HAD HOSTS OF FRIENDS IN DIXON.

The funeral of Alfred Humphries, who died suddenly yesterday, will be held tomorrow afternoon from the late home, 115 Crawford avenue, at 2 o'clock, and from St. Patrick's Catholic church at 2:30, Father Foley officiating.

The deceased was born in Hill Top, West Bromwich, Eng., Feb. 18, 1862, coming to this country when a young man. Almost all of his life in America has been spent in Dixon. For 23 years he had been in the employ of the E. J. Countryman store, the oldest employe in point of service.

Mr. Humphries had made hundreds of friends in his work and the news of his death flashed about the city brought grief to many.

PLAN TO HOLD FIRST BALL GAME TOMORROW

DIXON STARS AND OLD TIMERS TO MEET IN FRIENDLY COMBAT.

If the weather man behaves as he asked to by many fans and the ball tossers, tomorrow will witness the opening of the baseball season of 1913 in Dixon, for at 3 o'clock at Athletic park, the Dixon Stars and a picked team of "old timers" will meet in the first big game of the season.

And the attendance will be large. There's no doubt of that, because no admission will be charged for this contest, and if anything will bring the fans out, it is a free game. And then there is the additional drawing power of a first game, a desire to see the Stars in action, and the fact that the "old timers" will be able to put up some game, too. The lineup will be:

Stars	Old Timers
Keenan, J.	c Buckley
Huber	p B. Woodyatt
Whitebread	1b Devine

BRYCE BIDS U. S. ADIEU

British Ambassador in Touching Farewell to America.

Diplomat Declares We Had Come to Almost Feel Himself a Citizen of This Country.

New York, April 26.—James Bryce, the retiring British ambassador, standing beneath two huge American and English flags which hung from an electric sign, "Hands across the sea," delivered a touching farewell address to the American people at the banquet tendered him by the Pilgrims of the United States at the Waldorf here.

Mr. Bryce said that he had come to almost feel himself a citizen of the United States, and it was only the incompatibility between that and the position as British ambassador which had prevented him from at times offering advice in the government of domestic affairs.

The sentiment of the hosts were expressed by Joseph H. Choate when he said:

"England has sent many ambassadors, and will send many ambassadors. But there's only one Bryce in the list."

Mr. Bryce said that he felt that the United States was confronted by many problems, and that some of them were causing considerable worry, but that he saw two firm grounds for hope that the final outcome would be satisfactory. The first of these, he said, was that in this country there is a large and powerful class of sane, sober-minded citizens, who stand between the capitalistic and wage-earning class, which are now at strife throughout the world. The other he gave as the steady rise of the standard of civic duties among the men of all classes in the United States.

FISH CLUB HELD INTERESTING MEET

FIFTY WERE PRESENT AT BANQUET LAST EVENING IN I. O. O. F. HALL.

The first annual banquet of the Dixon Fishing club was held last evening at the I. O. O. F. hall and the affair was a decided success.

Fifty Were Present.

Half a hundred anglers and their friends were present when at eight o'clock the word was given that the spread was ready. The banquet room had been prettily decorated for the occasion and the guests were seated at five tables, on each of which, mounted in a bank of sand, was a pan of minnows and beside each pan a miniature fisherman, several placarded for the occasion: C. A. Holwick, H. O. Wheeler, Rev. A. B. Whitcombe, Joe Staples and Judge Kent.

The banquet, which was tastily served by the members of the "Rebekahs," was wholesome and appetizing and pleased the fifty men, all of whom showed their appreciation by participating in a rising vote of thanks to the ladies at the conclusion of the affair. The following menu was served: Japanese soup, fried catfish, roast beef, potato and cabbage salad, baked sweet potatoes, creamed potatoes, pickles, cheese, celery, jelly, green onions, wafers, strawberries and cream, cake and coffee.

Some Good Talks.

After all had eaten to their entire satisfaction, a short program was enjoyed. Harry O. Wheeler, president of the club, presided and called upon Rev. Whitcombe to invoke the divine blessing, following which W. G. Kent was introduced as toastmaster. Mr. Kent, after reading the constitution and by-laws of the club, read the greetings to the club from Congressman John C. McKenzie, Senator J. H. Gray of Morrison, Representative Hunt of DeKalb and Representative Garesche of Springfield, none of whom could be present.

Some Surprises.

After the toasts a few surprises were sprung, the first when Rev. Whitcombe, on behalf of the club, presented Sec. Joe Staples with a fine fishing rod, and the second when a set of resolutions endorsing the efficiency and fairness of Deputy Fish Warden W. E. Orr and asking his retention by Gov. Dunne, were presented and passed unanimously.

The resolutions were:

Whereas, W. E. Orr of Aurora, Illinois, has been the active and efficient warden of the second fish warden district of Illinois for the past two years and has been for many years last passed engaged in the business of protecting fish and game, and

Whereas, during his incumbency the fishing laws in this vicinity have been better enforced than ever before, therefore

Be It Resolved by the Dixon Fishing Club, that we indorse the policy and actions of W. E. Orr as fish warden and we recommend to the appointing power in the state administration that he be retained in his present position.

WRECK DELAYED THE PAPER TRAIN

DIXONITES DID NOT GET THEIR MORNING PAPERS FROM THE EAST ON TIME.

Owing to a freight derailment at LaFox, the paper and mail train due here at 4:58 did not arrive until 8 o'clock this morning. As a result all mail from the east, including the Chicago papers, did not go out on the morning deliveries. The mail train was backed to West Chicago, going to Belvidere from there on the Freeport division, thence to DeKalb, thus making a detour which took considerable time.

The wreckage was not cleared away early this morning and the Sterling passenger was sent around via Belvidere. Later in the morning one track was cleared and other trains were enabled to get through.

JOHN PIRIE ONCE LIVED IN AMBOY

MERCHANT PRINCE OF CHICAGO WHO IS DEAD, WAS FORMER AMBOY MERCHANT

John T. Pirie, retired head of the department store of Carson Pirie Scott & Co., of Chicago, died Thursday at his summer home in Florida, at the age of 86. He was born in Scotland, where he met Samuel Carson and the two formed a partner ship, later coming to America.

In 1865 they opened their first store in Peru, Ill., moving shortly after to LaSalle and three months later to Amboy. Amboy was a boom town at the time, the opening of the Illinois Central railroad promising a brilliant commercial future for it, in the minds of the business men of the day.

While at Amboy Carson and Pirie became acquainted with George and Robert Scott, two brothers, who were taken into the firm, which became Carson, Pirie, Scott & Co., the name by which it is known to this day. The four partners opened other stores along the line of the Illinois Central railroad and in other parts of northern Illinois, gradually increasing their business.

In 1864 they decided to go to Chicago and make their headquarters there, and did so, opening their first wholesale establishment at 20 Lake street.

This was followed by the department store, now worth many millions.

LAO LED SISTER OUT OF FIRE

STERLING YOUNGSTER SAVES HIS SISTER'S LIFE AFTER FIRE STARTED.

Sterling, Apr. 26.—The little children of Mr. and Mrs. Clifford Wesner had a narrow escape from losing their lives in the fire that destroyed the barn at the Wesner home Friday.

Howard, who is only four years of age, was the hero and it was by his efforts that he with his sister, Miss Mae, escaped from the burning building.

Ignite a Match.

In some manner the children secured a match and went to the barn, closing the door behind them. In an instant the barn was a mass of flame after the lad struck the match. He seemed to realize the danger and attempted to extinguish the fire, but was unsuccessful. Holding onto his sister's hand he groped his way out of the barn through the dense smoke and escaped.

DULL HEADS

cannot enjoy life. In fact dullness is due to congestion of the blood in the brain. The result is a

CONFUSED MIND—unable to help itself. And the sufferer ekes out a miserable existence. Of these dull, dragging headaches there are

SEVERAL CAUSES—two or more frequently acting at the same time. Stagnant bowels are certain to make aching, weary bodies.

BLOOD POISONING—in some form will follow if the kidneys do not remove the waste matters from the blood.

PROVIDING FOR THE FUTURE

Station in Maine Has Arranged to Turn Out Half a Billion Lobsters This Year.

Half a billion lobsters will be the number hatched at the government station at Boothbay Harbor, Maine, for the present year. It is a huge figure, bigger than most people can realize. It will also mark a record for the number of shellfish brought to life at the government place.

At the present time there are at the Boothbay hatchery 13,529 seed lobsters from which eggs will be secured.

The season for collecting the seeders extends into the spring of this year, so that it is safe to say that fully two-thirds as many lobsters as have already been collected will be added to the number on hand. The average number of eggs secured from the mother lobster is 20,000. The percentage of fertility of these as they are hatched at the government station is so high that it is safe to say that practically all of them will be hatched.

Reckoning on this basis, the number of seeders now at the hatchery will produce 270,000,000 lobsters. The number yet to be collected will very nearly total up to 500,000,000.

AT THE AGE OF REAL WORTH

Youth of Eighty Years of Age Hopes to Demonstrate His Value Before the World.

Here is a young fellow who is the real thing. Andrew D. White, founder of Cornell university, for several years representative of the nation at St. Petersburg and Berlin, and delegate to the first Hague peace congress, recently reached the age of discretion and celebrated his eightieth birthday. So now he expects to be able to do some real work. He has taken up the study of criminology and hopes, he says, within the next few years to make some contributions worth while on the subject.

That is the sort of spirit of youth to make a man envious. But why not? At eighty a person is just beginning to accumulate a bit of wisdom and to get rid of the half-baked ideas of his boyhood. He is reaching a point where he sees through the shams of success that really is failure and failure that really is success. With such a good foundation to build on, why shouldn't he start in to do something of real value?

Blessed are the young in heart.—Kansas City Star.

Who Invented Paper?

All the world knows that the Arabs transmitted from India to Europe, through Arabia, the figures with which we do our sums, but it is not generally known that we also have them to thank for paper. At various times the scholars of different countries have tried definitely to determine the real discoverer of paper in the eleventh century. It is to paper that we owe the renaissance of letters. From time immemorial something answering modern paper was used in China, where it was manufactured from silk. About the middle of the seventh century of our era there seems to have been established in Arabia a manufactory of paper, and fifty years later the way was discovered to make it from cotton instead of from silk, silk being a rare commodity outside of China at the time, and cotton relatively plentiful. In the reign of Henry II. of France a Greek scholar was sent to Paris to arrange systematically a catalogue of antique manuscripts in the royal library, and a notation in his hand speaks of what was then known as "paper" as originating in Damascus. The later invention of making paper from flax, linen, hemp has been attributed equally to Italy and Germany, but there is evidence that it existed prior to the fourteenth century.—Harper's Weekly.

Her Sculpture.

A French woman who is wealthy, and noted as a generous entertainer of artistic folk, has herself some ambition to shine as an amateur sculptor. A Paris paper has told how this clever woman managed to have a piece of work accepted by an art jury. One day she invited a master sculptor to dinner. After the dessert she said carelessly: "Come and see my little figure; it does not quite come up to my idea."

They passed into the atelier, where the sculptor gave a few reparatory touches to the figure.

Some days later she invited another sculptor to dinner. Again the atelier was visited. "Not bad, not at all bad," said this artist, and generously gave the figure a few useful touches. After several seances of this kind the good lady was not ashamed proudly to acknowledge the complete work as her own.

Queen Elizabeth Opened It.

In connection with Granville Barker's production of "Twelfth Night," it is interesting to recall that we have still standing in London one of the halls in which the play was performed during Shakespeare's lifetime. In the hall of the Middle Temple, opened by Queen Elizabeth in person in 1576, "Twelfth Night" was acted at Christmas, 1601, and there is a strong probability that Shakespeare himself played a part in that performance. In the early days the Inns of court were patrons of the drama, and the hall of Gray's Inn can also claim to have witnessed a contemporary Shakespeare production, "A Comedy of Errors" having been given there in 1594.—London Chronicle.

WHY

Should the Farmer Get Only 35c on the Dollar for His Produce? "There's a Reason"

John I. Gibson, Secy. of Western Michigan Development Bureau, a Michigan Corporation not for profit, will discuss this and other questions of vital interest to the farmer and to everybody who has to eat to live, in his free illustrated lecture:—

Western Michigan the Land of Fruit and Fortune

With the aid of more than 100 colored pictures, Mr. Gibson will tell of the cheap, fertile land, healthful climate, good roads and great possibilities, especially to the man of small means, of this rapidly developing region, where better farming, better business, and better living are the watch words.

More than 3500 new settlers have come into Western Michigan during the past four years.

You will not be asked to buy land as the Western Michigan Development Bureau is supported by taxation and has nothing for sale.

DEMENTTOWN ... DOINGS

Our friend Stew Nettz is sure some great little hose tester. In his efforts to show the firemen how to pump up a hose to 180 pounds pressure in record breaking time, Stew worked fully ten minutes yesterday afternoon while Chief Coffey was letting the wind out of the other end as fast as he was pumping it in. And further, Stew won't know why it took him so long until he reads this paragraph.

It is reported that a customer entered one of Dixon's meat markets the other day and left an order for 50 cents worth of sirloin steak, with the admonition that if "there was no one at home the boy could poke it through the keyhole."

Imagine the discouragement felt by the cinder that has been wasting its time in a glass eye.

Goose Hollow Letter

Deacon Stubbs' mule, Hyacinth, has been makin' the all firstest racket lately, hee-hawin' all night, and the common council took action, declaring Hyacinth a public nuisance, and instructin' Constable Ezra Hand if he tied the mule's tail down firm to her hind leg she couldn't holler, and Ez got a piece of rope and went to tie the mule's tail to her hind leg. When he got there the mule's tail was stickin' right up in the air and she hollerin' like a Comanche Indian Ez grabbed ahold of her tail and tried to pull it down, but by golly, he couldn't budge it no more than he could pull over the Washington monument. While he was pulling away, Hyacinth let loose her off hind leg and landed Ez through the side of the barn. Deacon Stubbs now threatens to law the township for destroyin' his property. Ez finally stood off 20 foot and made a lasoo outn' the rope and lasooed the tail. He then put a pulley in the floor and with the aid of three members of the common council and two or three bystanders he managed to pull the tail down and get a half hitch around Hyacinth's hind leg and there ain't been a holler out a' that mule since and there's some peace in this neighborhood. Ez says anybody that wants his sinure as constable kin have it by paying him the price of his star.

Auburn, N. Only One Way To End Catarrh

Reach the raw, tender, inflamed membrane infested with Catarrh germs, and destroy them.

You can't reach the nooks and crevices with liquid preparations—there is only one way—breathe the germ destroying air of Booth's HYOMEI (pronounce it High-o-me) directly over the inflamed and germ infested membrane.

HYOMEI contains no opium, cocaine or other harmful drugs, it is a balsamic air made of Australian eucalyptus, thymol, and some Listerian antiseptics. It is guaranteed to end the misery of Catarrh and Croup or money back. It's fine for colds and Coughs.

Ask Rowland Bros. about Booth's HYOMEI outfit today—it is only \$1.00 and they guarantee it. Extra bottles, if later needed, 50 cents. Just breathe it—no stomach dosing.

STRUCK HIMSELF BUT

SUES HIS EMPLOYER
Ottawa, Apr. 25—Jan. 22, 1913, Earl Mallory was in the employ of the Wedron White Sand company at Wedron. His duty was to drive his own team in doing the work assigned.

As a driver of his own team he used his own whip. On this eventful day he held his own whip in his own hand as he struck at his own horse. As he struck his own horse with his own whip held in his own hand a piece of the whip broke off and struck him in his own eye. Now, under the employers compensation act he is suing the Wedron White Sand company for a lump sum settlement of damages.

TRIAL MARRIAGE.

Rockford Register-Gazette: It would therefore seem well, from this point of view, to encourage early trial marriage, the relation to be entered into with a view of permanency, but with the privilege of breaking it if it proved unsuccessful, and, in the absence of offspring, without suffering any great degree of public condemnation.

Mrs. Elsie Clews Parsons, a doctor of philosophy, for years a lecturer on sociology in Barnard college, daughter of a rich banker and wife of a congressman, proposes this "startling reform."

"Trial marriage" certainly sounds sensational.

But as a prosaic matter of fact, the commonness, cheapness and respectability of divorce has rendered all marriage "trial marriage."

It is difficult to imagine greater facility in the annulment of marriage than now obtains in most of the states.

No "reform" is necessary to bring about precisely the condition in effect, which Mrs. Parsons proposes.

The reform is needed in the other direction. We need to get rid of the feeling that marriage is a mere experiment.

Of course, all couples at the time of marriage, expect to live happily ever after. Trial marriage could mean nothing to them at that time. People who do not feel, for the time, at least, that they can take each other for life, need no "trial" to prove they are not fitted.

The absence of offspring during "trial" would be a powerful cause of failure in many marriages that might otherwise have been successful. But that would be nothing new. It is the case now and always has been. Until there are children to tie the heart strings together there is no real trial of marriage.

We are too apt to forget that most of the laws which operate toward successful marriage are provided by nature.

Human statutes provide for failure—and, alas, there are too many of them already.

W. H. RINK SOLD

HIS MENDOTA BARN
Mendota Reporter: On Wednesday forenoon a deal was closed whereby Ed. Degenhart became possessor of the Hackett livery barn property. Mr. Degenhart purchased it from Wm. H. Rink of Dixon, paying \$8,000 for the same. The ground contains four lots, one piece being 80x120 and the other 15x50. Mr. Degenhart has not completed plans as to the contemplated improvements, but it is safe to state that the old barn will be torn down and a new modern building will take its place.

NORTH DIXON HIGH SCHOOL NOTES.

All contributions to this part of the Dixon Telegraph should be sent to Robert Fulton, Jr., Department Editor.

Some Sparkler.

Rube (Mark) Smith appeared in school yesterday morning with a brand new 8 horse power diamond (?) of the 'steenth water.

Walter refuses to reveal where he got this wonderful rock, which he wears on his fourth digit. Maybe it's the Sultan's! Hereafter Mr. Smith will be known as the 'Cinder King.'

N. D. H. S. Fully Accredited.
In the Illinois University Annual Register, recently issued, North Dixon again appears as a fully accredited high school. This speaks well for our effective corps of instructors.

Baseball.

The team has no game scheduled for this afternoon, but it is thought that a little scrub game will be indulged in.

The Freshies.

Contrary to their usual custom the Freshmen did not celebrate last evening. This is the first Friday in three months that has gone by without a party of some kind or other.

The Juniors.

The Juniors were recovering this week from last Friday's celebration. The Seniors have not said anything about entertaining them. In the meantime some of the Juniors are wondering if the investment will realize them anything.

Which reminds us of the story of a certain Dixon citizen who prepared an elaborate entertainment in honor of the wedding anniversary of himself and wife. While the presents received were not as many or valuable as expected, he told a friend, upon being asked how the affair came out, that he "guessed they came out about even."

To Fly to Rockford

Jimmy Ward, who is expected to thrill thousands of people during the Rockford Spring Festival and Home-Coming celebration, June 3, 4, 5 and 6, with his sensational flights in an aeroplane, expects to fly from Madison, Wis., to Rockford, carrying with him a sack of mail.

Peoria Man Suicides

Peoria—Worry over ill health is believed to have led Mark McKinney 52 years old, a flagman for the Rock Island, to commit suicide last evening by hanging himself by a small rope tied to nail in the top of the door casing in the kitchen at his home, 201 Evans street. He was found shortly after 9 o'clock by his two brothers, Thomas and John, and Jack Longren and Albert Prohmer, who fearing something of the kind, as they had not seen him all evening, called at the house.

McKinney was suffering with a cancer of the nose, which was spreading over his face. Besides this affliction he was also a cripple, having lost one arm and one foot in a railroad accident about twenty years ago.

For Band at Rochelle

A move is on foot to organize a cornet band for Rochelle. A number of the boys are very enthusiastic over the project and are interesting others in surrounding towns to join the organization. A professional leader from Decatur has been engaged to take charge of the band and as he is a good machinist will be able to secure a position at the Whitecomb and be a fixture here.

A number of the Ashton and Lafayette and other boys have expressed their desire to join the Rochelle aggregation and have one of the best concert bands in this part of the state.

Terrorized Village

A man of disheveled appearance, who says his name is Arthur Poole, was locked up in the Peoria county jail, after terrorizing the village of Rome since yesterday noon.

Poole was placed under arrest by Sheriff Grant Miller and several deputies and was taken at the C. & A. store in the village. He offered no resistance to the officers when placed under arrest.

Big License There

Pecatonica—A sort of monopoly has been created in the saloon business in the village and as a result of keeping out a third saloon George Ives and Gene Anderson, the present holders of licenses, each will pay in to the treasury the sum of \$2,250 for the privilege of conducting dram shops here next year.

Last year the license fee was \$1,500 but as long as the citizens expressed themselves in favor of a wet town, the board considered it might as well get more license money out of the traffic as there was a demand for a third saloon.

Found Another Body

Relief from the suspense following the drowning of Harry Blakesley on March 30, came yesterday when his body was found in the river at the foot of Cedar street in Rockford. It was in a fair state of preservation and the recovery frees his widowed mother from the worry that the body would never be found.

An Ottawa Hero

Harvey Neary, of Ottawa, aged 20 years, leaped into the water of an abandoned lock of the side-cut at Superior street at 6:30 o'clock on Wednesday evening, and rescued Agnes Vargo, aged 5, from drowning.

Peoria Man Killed

"Patsy" Carr, for years a flagman at the Sanger street crossing, in Peoria, died at 9 o'clock this morning at the St. Francis hospital as the result of injuries he received at 3:30 o'clock yesterday afternoon, when he was struck by a freight train.

Hen 14 Years Old

Henry Potts of Sterling, is mourning the death of a hen which has been a regular fixture at his home for fourteen years. Twice a year this hen produced two broods of chickens and was the pride of the Potts' home. But the other day the little pet became ill, and finally passed away to her reward. Mr. Potts stated that it was impossible for the chicken to live on forever, but feels quite sad over the death of the chicken, just the same.

Dramatic Notes

FAMILY THEATRE

The Family theatre was crowded at both performances last evening. 4 reels of good pictures were shown, and the Mozart Trio were a treat. They are accomplished young men, musicians and artists. The pastel work of Mr. Marshall is effective. His quick work pictures while singing with his two companions look pretty enough to hang in a parlor. Last evening by request he sang The Perfect Day and received an encore. The tenor and baritone both have excellent voices and their work was enthusiastically applauded. Tonight the following pictures will be shown:

Beau Brummel
Sixes and Nines
His Children.
The show deserves the large patronage received.

A FEATURE PICTURE

AT FAMILY THEATRE

On Sunday night the Family theatre will show a special two reel feature picture called "The Ways of Destiny." This is the subject that was to have been shown last Sunday evening but on account of an accident to the machine it was impossible. Manager Plein has gone to considerable expense to have the subject returned

and assures the patrons that hereafter there will be no disappointments in regard to the pictures, as an extra part for the machine has been purchased, thus being able to meet any emergency.

In connection with the above picture a comedy, Mother's Lazy Boy, will be shown.

OPERA HOUSE.

Two feature acts of exceptional merit are included in this evening's vaudeville at the opera house, continuing over tomorrow. LeMando is a Parisian instrumentalist of rare talent. He has music at his fingertips classic or ragtime is all the same. Among the instrument he plays to perfection is a genuine Cremona—a Cremona in the violin world is of the tone peerage. In his hands all its tenderness and exquisite beauty is shown to advantage. Equally commendable and entitled to your confidence are Leslie & Harding in their singing and talking act which, together with the photographic excellence of the opera house pictures insure one of an evening well spent.

The Family theatre will have a special two reel picture Sunday night, called The Ways of Destiny. A comedy, Mother's Lazy Boy, will also be shown.

MADE MATTER OF NECESSITY

According to This, There is Little Doubt About Colored Man's Liking for Chickens.

In the endeavor to uplift the race, a friend of ours started in by trying to smash silly old superstitions. Our friend believes that negroes are maligned, and that many of the stock jokes about them are not founded on fact. He has, in fact, succeeded in proving that a number of the old minstrel standbys are mere senseless jests. And the other day he interviewed the elevator boy in his office building.

"Arthur," he said, "there's a silly old saying that you colored people are crazy about chickens. I can't see how that started. Do you like chicken?"

"Yassah."

"Of course—almost everybody likes chickens. I mean to say, do you like it better than anything else in the world? Do you like it so well that you would steal it if you couldn't obtain it honestly?"

"Boss, I likes chicken so well dat if I couldn't git it no other way, I'd buy it!"—Cleveland Plain Dealer.

Changed Times.

Miss Mary Donnelly—"Our Mary" the New York suffragist, said at the suffrage lunch rooms:

"I was walking the other week in Long Island. The sky was blue. The crystal air was pure and frosty. The trees were painted with autumnal colors—gold, and pink, and raw red. How beautiful it was!"

"In a meadow a half dozen young women were practicing putting. They looked very smart in their trim golf suits, their skirts of rough homespun, and their scarlet jackets. As I watched them, an old farmer and one of his farm hands approached. 'Boss,' grumbled the farm hand, 'them girls in the medder is scarin' our cows.'"

"The old farmer shook his head and sighed.

"'Ah, Timothy,' he said, with profound truth, 'times is changed since I was young. In them days the cows scared the gals.'"

Parents Object to Sunday School.

The falling off in attendance in the Sunday schools, which was the subject of a discussion at the convention of the New York County Sunday School association, was referred to by a layman after the meeting had adjourned as "a progressive disease" and that the Presbyterian Sunday schools are not the only ones where there had been a falling off "from 21 to 24 per cent." "To a great extent," he said, "the condition is the result of too much school work. Parents say that after a strenuous week at school the child should have work of no kind on Sunday. That's the excuse of those parents who seldom go to church because of golf and motor cars—and there are thousands of them."—New York Tribune.

Old Proverbs About Apples.

No fruit has played a more important part in sacred or profane history than the apple, of which Solomon made good use in his proverbs, "stolen apples are sweet," and "a word fitly spoken is like apples of gold in pictures of silver."

A good many English doctors prescribe an apple for either the first or last meal. The Dutch equivalent for our "two birds with one stone" is "two apples with one stick," and the origin in the saying, "A windy year, an apple year," dates back to the days of the Norman.

PIERCE CHARGES LOSS TO BANKER

Financier Declares He Dropped \$7,000,000 Through Misplaced Confidence.

EX-SENATOR BAILEY IS NAMED

Magnate Testifies That \$1,500,000 in Securities of Nashville Terminal Company Was Turned Over to Texas Statesman.

St. Louis, April 26.—Henry Clay Pierce, testifying here before special Commissioner Munch in the suit of the National Bank of Commerce to recover from him securities alleged to be worth \$1,500,000, which had been pledged with the bank, told how he had become involved in the Tennessee Central railway deal to the extent of nearly \$7,000,000 through financial transaction engineered by officers of the bank. He blamed his entanglement mainly on what he termed misplaced confidence in the late J. C. Van Blarcom, president of the bank.

Pierce testified regarding the connection of former Senator Joseph Bailey of Texas, that it was his understanding that the \$1,500,000 stock of the Nashville Terminal company, which the National Bank of Commerce seeks to recover, was turned over to United States Senator Joseph W. Bailey of Texas, as assignee of the Tennessee Construction company, after the loan for which it was pledged had been paid.

He said: "In 1901 or 1902, I was forced into a larger interest in the Tennessee Central enterprise than other individual subscribers to the syndicate, when my son-in-law, Richards, in my absence and without my knowledge signed my name to a guarantee to buy \$1,500,000 of the first mortgage bonds of the railway. Since the collapse of the syndicate it has been necessary for me to advance over \$4,000,000 in cash to the Tennessee Central railway to pay its expenses."

Senator Given Charge of Holdup. "After the syndicate collapsed, Senator Joseph W. Bailey of Texas, was made the assignee of the Tennessee Construction company and all of its properties were turned over to him. He was authorized to take charge of the affairs of the company and wind them up."

"Senator Bailey sold over \$4,000,000 worth of property of the company, and it was my understanding that from the sale of these properties the loan at the bank of Commerce, for which the Nashville Terminal stock was pledged, was paid, and that the stock then went back to Bailey as assignee for the construction company."

"The stock was later pledged to the Standard Trust company of New York by Senator Bailey, and remained for three years. It was finally delivered to Eben Richards, on my order, after the trust company had notified me that it had no further claim to it."

"The stock is now in my possession, or in the possession of my agents, although I have not seen it."

SHOOT AT STATESMEN

Members of Congress Target for Marksmen of Monitor.

Twelve-Inch Shell Clips Rigging of Dolphin and Drenches Naval Officers' Committee.

New York, April 26.—Eleven members of the senate and house committees on naval affairs had a narrow escape from being blown to pieces while watching naval target practice at Judith sound.

The monitor Tallahassee, shooting while a thick haze hung over the water, mistook for the target the United States yacht Dolphin, on board of which were most of the members of the official party, and an 800-pound shell fired from a twelve-inch gun passed directly over the stern of the Dolphin so close as to cut one of the ropes attached to the yacht's rigging.

The shell exploded just before it struck the water, and while the committee members were thoroughly frightened, they suffered nothing more serious than a drenching from the water stirred up by the projectile.

Among those in the party were Representatives Foster and Buchanan of Illinois.

TARIFF DEBATE WARM

A. Mitchell Palmer Discusses the Steel Schedule.

Representative Moore of Philadelphia Introduces a Novelty in Replying to Questions.

Washington, April 26.—Admitting that the downward revision of the steel schedule would prove ineffectual because of the world-wide agreement among steel manufacturers, Representative A. Mitchell Palmer, who comes from the Pennsylvania district in which Charles M. Schwab is the largest employer of labor, said that the ways and means committee thought there might come a time when this international agreement might be broken and this country could get advantage of the committee rates.

Representative Moore of Philadelphia claimed that the Democratic bill would prove destructive to many industries in that city and state, especially the woolen and cotton fabric mills. He insisted its enactment meant the loss of employment to thousands of mill workers in Philadelphia and throughout the country.

Moore, in making his speech, presented a novelty to the house. He had the clerk of the house ask him tariff questions, and Moore replied. During the speech, which savored of the public school system, Representative Murray of Oklahoma raised his hand and asked:

"Please, teacher, may I go out?"

President Wilson was told by Senators Newland of Nevada and Mark Smith of Arizona that they could not support the provisions in the Underwood bill for free raw wool and ultimate free trade.

They told him the incorporation in any bill of these two provisions meant the loss to the Democrats of the intermountain states, that have gone recently Democratic.

BOMB FOUND IN TIME

Powerful Explosive Discovered Just Prior to Blast.

Manager of L. P. White Watch Case Co., of Philadelphia, Detects Deadly Machine by Odor of Burning Fuse.

Philadelphia, April 26.—A powerful bomb composed of two pounds of high explosive and studded with a battery of steel jacketed 35 caliber cartridges, all hidden in a hand-painted beribboned candy box to which a long fuse had been attached was discovered a few seconds before it was due to explode in the Bird building, at the corner of Ninth and Chestnut streets, here.

The bomb had been placed on a window sill near the desk of Robert L. Coates, manager of the L. P. White Watch Case company, one the second floor of the building.

The box had been concealed beneath other packages and as Mr. Coates reached for one of these he was attracted by the odor of the burning fuse. Looking beneath his desk he saw the sizzling strings which led to the bomb. He stamped out the fire, hurled the box into a water bucket and telephoned the detective bureau. At the city hall the deadly character of the infernal machine was discovered. Officials of the watch case company and the detectives are mystified as to how the bomb was placed in the private office. No employees have been discharged recently, there is no strike threatened and all appear perfectly satisfied.

ENTERTAIN MISSES WILSON

President's Daughters Guests of Honor at Unique Capital Ball.

Washington, April 26.—The Misses Wilson were the guests of honor at a unique ball given for them by Senora Pena and the three Misses Pena, wife and daughters of the Uruguayan minister. As special entertainment the hosts had fancy dancing by well-known women of the diplomatic corps. Countess de Peytelli de la Rocca, wife of the counselor of the French embassy, and Senorita Ramona la Fevre, sister of the charge d'affaires of Panama, danced several ultra Spanish dances.

WILSON OFF FOR A CRUISE

President Sails on Yacht Sylph for Short Recreation Trip.

Washington, April 26.—President Wilson sailed today on the United States yacht Sylph for a short recreation trip in accordance with the orders of his physicians. Miss Eleanor Wilson and Dr. Cary Grayson accompanied him. Fearing the hard work that the president has been doing of late would undermine his health, the White House physicians have prescribed daily recreation and diversion.

Millionaire Is Arrested.

San Diego, Cal., April 26.—George H. Bixby, the Long Beach millionaire, wanted in connection with the Los Angeles white slave investigation, was arrested here. Bixby was taken to Los Angeles today.

Killed When House Collapses.

Paris, April 26.—M. Emile Froment-Meurice, a celebrated goldsmith, and his wife were killed here when the house in which they resided, at 46 Rue d'Anjou, suddenly collapsed.

MISS BORDEN IS FOUND IN BOSTON

Kidnaped Daughter of Millionaire Milk Dealer Is Kept in Hiding.

FATHER RUSHING TO SEE HER

Missing Girl Reported Found by Detectives Employed by Parent—Clew Leads to Liner Cincinnati and Wireless Is Used.

Boston, April 26.—Burns detectives here located Miss Romona Borden, the missing heiress, in this city. Her whereabouts are kept secret. She is not at the Hotel Vendome, as was reported at first, but is where her father will find her when he arrives from New York. Who accompanied the young woman to Boston the detectives will not say.

New York, April 26.—Search of the seas was begun here for Romona Borden, the 17-year-old daughter of Gail Borden, millionaire milk dealer, who disappeared from a New Jersey sanitarium Wednesday.

A girl answering in many ways to the description of Miss Borden sailed from New York on the liner Cincinnati. To clear up this clue wireless messages have been sent to the captains of this vessel and others that left port within the last few days, giving the details for identification of the missing girl.

In addition, the New York police department officially began a systematic hunt for Miss Borden. Mr. Borden himself asked the police to take up the case and held a long conference with detectives.

A report was current that Miss Borden had been found by a detective agency employed by Mr. Borden. This report was not verified, however. It was said that the private detectives are awaiting the filing of informal charges against the girl's alleged kidnapers before disclosing her whereabouts.

Clews Various But Vague. Various but vague are the clews to the young woman's whereabouts. Reported to have returned to the New Jersey sanitarium, it now appears that the statement of her return was one of expediency on the part of the sanitarium authorities, and it is understood that Mr. Borden, the family physician and Mr. Borden's lawyers have not the slightest idea where she is.

After conferring with the police, Mr. Borden went to his hotel to get a few hours' rest before continuing the search. Apparently his efforts here during the day were fruitless.

He said he believed his daughter was either in this city or near by, and declared that, if necessary, he would hunt for her all over the world.

"Some one will pay dearly for this," said the father. "I know that my daughter is not back at the sanitarium and I am pretty positive that she has not gone abroad."

YOUNG LOVERS SUICIDE

Boy and Girl Plunge to Their Death From Clock Tower.

Antwerp, April 26.—An eighteen-year-old young man and his nineteen-year-old sweetheart climbed arm-in-arm to the clock tower of the Notre Dame cathedral here and, after a farewell embrace, leaped from the balcony, and a moment later the two bodies struck at the feet of a passerby. A number of persons were witnesses to the tragic dual suicide and several women fainted as the two bodies fell through the air. Nearly every bone in the bodies of the boy and girl were fractured upon the impact with the pavement.

MRS. APPELBAUM IS FREED

Jury Finds Woman Not Guilty of Charge of Slaying Husband.

Atlanta, Ga., April 26.—Mrs. Callie Scott Appelbaum was found not guilty of the charge of slaying her husband by a jury in the criminal division of the superior court here. The jury deliberated but 33 minutes. Mrs. Appelbaum fainted as she crossed the courtroom to thank the jury for their verdict, but she was revived shortly and left the courtroom with her attorneys, smiling. "I have no plans for the future," she said. "But my boy and I will be sweethearts from now on."

\$200,000 FOR RACE HORSE

White Knight Brings Record Price for Single Animal.

London, April 26.—The famous race horse, White Knight, was sold to a foreign buyer for \$200,000 here. The figure is believed to be a record price for a single horse. White Knight was noted as one of the greatest "stayers" in the last decade. He won the Ascot gold cup twice, as well as the Goodwood cup. He was owned jointly by W. R. Wyndham and Colonel Kirkwood.

Pope Constantly Improving.

Rome, April 26.—The refusal of his private physicians to allow him to resume any part of his routine at present is said to have depressed the pope, although his holiness' convalescence is progressing uninterruptedly.

AVOID SPREADERS OF GLOOM

Chronic Grumblers and Avowed Discontented Persons Are Never the Best of Companions in Life.

The chronic grumbler is not a good companion nor in any way an admirable person. We fly from her as from a contagious disease. Nothing so certainly affects one's spirits as being in the constant company of a person who has a grievance.

The cherishing of discontent with our circumstances, business, dress, or any other thing in life soon robs us of beauty and marks the countenance with the lines of worry and ill temper that tell their own unhappy story.

Why anybody who is young should indulge in grumbling as a pastime is one of the puzzles that never is solved, yet such people there are, and we meet them to our sorrow almost every day.

If they happen to be passengers on a railway train they pile their bags and bundles on an extra seat for which they have not paid, are conveniently blind to the weariness of other passengers who are standing, and assume the aspect of martyrs when the conductor courteously but peremptorily informs them that they must make room.

They object to having the windows open, although the air may be loaded with impurities from the congestion of the crowd; they scold and fret at the throng or the conductor and rail at Providence in general because everything in life is not arranged with a view to their comfort.

RESPONSIBLE FOR THE SLUM

Society Can Not Ignore Its Share of Blame When the Facts Are Brought to Light of Day.

Children work out their destiny along the lines of environment. If two infants, one born in a slum hovel and the other in a palace, were exchanged on the day of birth, each would work out his destiny in accordance with his surroundings. The child of the hovel would grow up to the palace. The child of the palace would remain on the level of the slum hovel.

While a noted physician was making these statements before a body of learned colleagues, a jury in Chicago found three boys, aged consecutively seventeen, eighteen and nineteen years, guilty of murder and convicted them to long terms in prison. The slayers were all slum products. Their youth saved them from hanging.

Society cannot afford to wax sentimental over a murderer because of his youth. Its duty, in self-preservation, is to inflict punishment. A part of this self-preservation duty, however, is to prevent the growth of murderers. In so far as society allows slums to exist and other degrading influences to be fostered, it is not without responsibility for the criminal.

Wanted—Woman.

For a good many years now all civilized nations have had the census, in order to determine scientifically the approximate conditions of population at home and throughout the world. Some of the statistics relating to the proportions of the sexes in different parts are interesting.

The total population of the world is estimated to be 1,700,000,000, and the proportion is said to be 1,000 men and 990 women.

The proportion varies considerably according to the region. In Europe there are, for each 1,000 men, 1,027 women; in Africa, 1,045; in America, 994; in Asia, 961; in Australia, 927.

The maximum feminine population is in Uganda, where there are 1,467 women to each 1,000 men, and the minimum in the gold countries of Alaska and in Malaysia, where there are found only 391 and 589 women, respectively to each 1,000 men.—Harper's Weekly.

Encouraging Generosity.

One of the cleverest of Cleveland's blind newspaper merchants takes his stand daily at one of the corners of the public square. He's got a sarcastic little sign that reads:

"Don't be ashamed to give me a penny—I'm blind."

The other day a friend of ours dropped a nickel in front of this chap, just to see if he was faking. The blind never shifted his blank gaze, but he said:

"Make it a quarter, boss, and I'm likely to forget myself."—Cleveland Plain Dealer.

One Can Write in the Dark.

A novelty is a penholder permitting one to write in the dark, since it is provided with an electric light. The tube through which the point of the pencil goes is fitted with a small accumulator and an electric lamp. The latter throws a disk of light over the point where the writing is being done. This luminous pencil has been invented for the use of doctors, reporters, detectives, etc., whose work necessitates the taking of notes in the streets and in darkness.—Harper's Weekly.

Dixon, Apr. 26, 1913.

Wheat: Except that rains have
been received when needed, condi-
tions surrounding the wheat market
have been favorable to bears. Mod-
erate decline early in the week in-
duced that the prospect of rain and
liquidation of longs in May wheat,
was followed by nearly 2c advance,
mostly lost on week end liquidation
of holders. Attention is called to the
fact that since Jan. 1 foreign mar-
kets advanced materially; we made
no headway. Our market closes 1-8
lower to 1-2 higher than last week
while Liverpool advanced; Broom-
hall asserts situation is influenced by
supply and demand, stocks every-
where light and good wheat in de-
mand. Lake navigation open and big
stock of Duluth wheat enroute east
and to Chicago. Outside points offer
better prices than Chicago and indi-
cations are absorption of these car-
goes by the milling and exporting in-
terests.

Corn: Closed lower every day this
week, tonight is 1-4c lower than
last Saturday. Conditions for plant-
ing good and cash demand and receipts
light. Navigation finds Chicago stock
cut almost in two, more put afloat
daily, checking eastern demand but
there is increased country movement.
Big holders desire to liquidate prices
gives weak tone to future market.

Oats. Seeding about done on some
sections the crop is about ripe prom-
ising well. Dry weather threatened
the southwest but rains have fallen.
Market follows corn rather than
wheat and prices for the week show
3-4c decline.

Provisions: Have declined sharply
this week, from miscellaneous hold-
ers. Weakness in hog and grain mar-
kets were against prices today. Lib-
eral run of hogs expected next week
should expectations be realized fur-
ther recession in product prices will
probably follow. Cash trade reported
fair.

Statements That May be Investigated
Testimony of Dixon Citizens

When a Dixon citizen comes to
the front telling friends and neigh-
bors of his experience, you can rely
on his sincerity. The statement of
people residing in far away places
do not command your confidence.
Home endorsement is the kind that
backs Doan's Kidney Pills. Such tes-
timony is convincing. Investigation
proves it true. Below is a statement
of a Dixon resident. No stronger
proof of merit can be had.

Julius Gottlieb, merchant, 418 W.
First St., Dixon, Ill., says: "All I
have previously said in praise of
Doan's Kidney Pills holds good and
I am glad to confirm my former
statement. My back had been causing
me considerable trouble and often
it was so lame and sore that it was
hard to bend over. The kidney action
was irregular and I knew that my
kidneys were disordered. Seeing
Doan's Kidney Pills advertised, I
got a supply at Leake Bros. Co.'s
Drug Store and they did such good
work that I can recommend them."

For sale by all dealers. Price 50
cents. Foster-Milburn Co. Buffalo

LOOK ON THE CHEERFUL SIDE

After All, What is the Use of Letting
Worry Get the Upper Hand in the
Journey Through Life?Did you ever cross a room while you
were busy and worried and catch a
sight of your face in the glass or win-
dow.Nine times out of ten your jaws are
set, your eyes are hard, and the ex-
pression of your face would discour-
age the most enthusiastic optimist in
the world.The next time you catch yourself
looking like that, stop and ask your-
self what under the shining sun are
you sulking about.Everybody has a sense of humor, or
if they have not they should have; so
call it into play at once and talk to
yourself, and keep on talking until
you begin to laugh at yourself and the
great big trouble that made you look
like a scowling dog. What will you
talk to yourself about?Oh, any merry little thing that once
occurred in your life—some pleasant
surprise, some happy day—anything
will do.This is no foolish advice I am giving
you, for, seriously, there is more in
this looking cheerful than you can
dream of. It is not half as feeble
minded as it sounds. Try it for a few
weeks and prove it for yourself.Don't overdo it, of course, but let
your face express good will and cheer
and comfort, and the first thing you
know you will feel it.You cannot entirely forget your
cares; nor would it be right to do so.Every one has cares; they are good
for us. The real God sent cares that
test the strength of our souls—all of
us have those, too; but let us meet
them like real women.—Chicago
Tribune.

UMBRELLA ALWAYS AT HAND

For Small Sum, Subscriber Is Guar-
anteed Protection From the
Sudden Shower.The Belgians have just founded a
company whose originality will be
hard to beat. This is the Umbrella
Lending society.The company has a capital of sev-
eral million francs, and half as many
umbrellas and its object is to save
people from the trouble of buying
and carrying these occasionally useful
but cumbersome articles about when
not in actual employ.Subscribers pay \$1 a year, and are
given an aluminum counter with a
number. It is much easier evidently
to carry a counter than an umbrella.If the subscriber is caught in the
rain all that he has to do is to go
into the nearest restaurant, tobacco
shop, or big store, and in return for
his ticket he is immediately furnished
with a respectable umbrella.When the sun comes out again he
enters the first similar establishment
and deposits his umbrella in exchange
for another counter.—Stray Stories.

Concerning Apple Pies.

If you ask a man what sort of pie
he will take, and he hesitates a mo-
ment, he is pretty sure to blurt out
apple. That is always a sure thing.
Custard, lemon, peach, blackberry,
mince, all depend; there is always
some doubt as to their manufacture
and the quality of the concomitants;
but with apple pie it is not so. Apple
pie is itself; it reigns in its own right;
it suggests no doubts; it is always
safe. Therefore it will be gratifying
news that the apple crop this year is
a bumper. There will be a yield of
105,000,000 bushels. That will make
about sixty pies to every man, woman
and child in the country; and this will
give an ordinary piece of pie to every
inhabitant every day in the year.
Was there ever a nation so highly
favored that it could have apple pie
for every person every day? This
nature and enterprise kindly and
bountifully minister to the taste of all
the people.—Ohio State Journal.

The Going of Ulysses.

A Kansas City man said he always
preferred red-headed office boys to any
other kind, as he had found them to be
unusually sagacious and alert; but he
discovered recently that some of them
are too much so. One day, returning
from a short out of town trip, he went
to his office and mentioned interroga-
tively that Ulysses, his promising as-
sistant, was nowhere in sight, and the
stenographer replied that he had not
shown up.Lifting up the last mail on his desk
he found a note addressed to him in a
very familiar, broad, vertical hand-
writing."Dear Mr. Cross," he said, "please
accept my resignation to take effect
yesterday. I got a better place with
less work and more pay. Respectively
"ULYSSES S. G. PARKER."

Dickens in Australia.

It is said that when a Scotsman
leaves old Scotia to make his home in
some other land he solaces his exile
with the book of Robert Burns' poems,
and that the Scot abroad comes to be
even better versed in the rhymes of
the peasant poet than the Scot who
has remained at home. It has been
remarked that the same is true as
regards the Englishman and Charles
Dickens. W. M. Hughes, acting prime
minister of Australia, goes further
than this and asserts that Dickens
had an important influence on Aus-
tralian democracy, and through men who
read him and loved him, men imbued
his hatred of shams and humbugs, who
wanted freer and better conditions,
to have some other place to look to
than the workhouse, had made Aus-
tralia what it is today.I have a house for sale that hap-
pened to drop into my hands by fore-
closure. It is centrally located, con-
tains eleven rooms, good, new fur-
nace and everything complete, with
good barn and outbuildings, all in
first class repair. Will sell this prop-
erty for a thousand dollars less than
it is worth. I do not want houses to
